### Play Pet Bingo to find out what pet is best for you.

Pick one of the squares. Then answer these questions about the animal listed:

- What does it cost to care for this pet per year?
- How much food does this pet need per day?
- How much space does this pet need?
- What kind of human contact does this pet like?

When you've answered the questions above, make an X on the square. You're finished when you've made one row up, across, or diagonal!
